# FITFACT

## I is for Intellectual Wellness

When we introduced the new "Fit Fact" feature, created by the Chamber's [Healthy Workplace Committee](#), we reminded employers that they have SPIES in their businesses. From the wellness standpoint, the "I" in SPIES stands for Intellectual Wellness. By definition, that means your ability to engage in mentally stimulating activities to expand your knowledge and experiences. Being mentally fit helps us to improve memory, boost focus, better mood, reduce depression and much more. Break out a puzzle or Sudoku, meditate, do things with your non-dominant hand or view things upside down which helps work both sides of the brain.
